

NEW

HOLBEIN HEAVY BODY ARTIST ACRYLIC

FEATURES

RE-ENGINEERED

- A completely re-engineered Artist Acrylic which consistently delivers more color vigor and lightfast ratings. They can be thinned with water or Holbein Acrylic Mediums, or scumbled as a thin dry brush layer. The acrylic body is brushable and will retain any peaks or ridges created when applied in thick applications.

ENHANCED BRILLIANCE

- Holbein's new acrylic range is a high quality, heavy body artist acrylic, specifically designed to add more luster and brilliance to your paintings.

113 CAREFULLY DETAILED COLORS

- Utilizing the best traditional organic pigments as well as the latest and most up to date inorganic pigments, the Holbein Heavy Body Artist Acrylic range affords the user seamless and effortless mixing and thinning.

SUPERIOR, SMOOTH, VIVID.

- Superior, smooth and vivid in every way. Holbein Heavy Body Artist Acrylics are certain to meet and surpass the demands of the modern artist, whether painting small or large, opaque or transparent.

with purchase of
installation.

HAU3 & HAU4

HEAVY BODY ACRYLIC INSTALLATIONS

Product #	Description
HAU1	HAU 60ml Tube Assortment with displays. (Full Installation, 113 Colors) Contents: 6 each of 113 colors, 113 sku's - 678 tubes total, 2 displays and 6 each of 150ml Titanium White, Zinc White and Mars Black. <i>Display Size: 24"Wx38"Hx10.5"D</i>
HAU2	HAU 60ml Tube Assortment with displays. (Half Installation, 113 Colors) Contents: 3 each of 113 colors, 113 sku's - 339 tubes total, 2 displays and 3 each of 150ml Titanium White, Zinc White and Mars Black. <i>Display Size: 24"Wx38"Hx10.5"D</i>
HAU3	HAU 60ml Tube Assortment, 60 colors with display. (Full Installation, 60 Color Selection) Contents: 6 each of 60 selected colors, 60 sku's - 360 tubes total, display and 6 each of 150ml Titanium White, Zinc White and Mars Black. <i>Display Size: 24"Wx38"Hx10.5"D</i>
HAU4	HAU 60ml Tube Assortment, 60 colors with display. (Half Installation, 60 Color Selection) Contents: 3 each of 60 selected colors, 60 sku's - 180 tubes total, display and 3 each of 150ml Titanium White, Zinc White and Mars Black. <i>Display Size: 24"Wx38"Hx10.5"D</i>

113 Color Assortment with Acrylic Medium Display.

HAUM1 & HAUM2

60 Color Assortment with Acrylic Medium Display.

ACRYLIC MEDIUM INSTALLATIONS

HAUM1

Acrylic Medium 300 ml Assortment with display

Contents: 6 each of 16 mediums, 16 sku's - 96 polybags total and a display.
 Display Size: 18"Wx38"Hx10.5"D

HAUM2

Acrylic Medium 300 ml Assortment with display

Contents: 3 each of 16 mediums, 16 sku's - 48 polybags total and a display.
 Display Size: 18"Wx38"Hx10.5"D

Professional quality at an affordable price.

Unique poly bags use less packaging than standard rigid plastic containers, resulting in less post-consumer waste.

Poly bags are tough, durable and designed to stand up for easy storage.

PASTES

- **MODELING PASTE (AM441)**
Mix with acrylic colors to achieve unique shapes and textures. Dry surface can be carved.
- **MODELING PASTE HIGH SOLID (AM442)**
Ideal for layering. Allows for higher peaks and valleys.
- **MODELING PASTE LIGHT (AM443)**
Allows for thick lightweight (fluffy) applications.
- **MODELING PASTE PUMICE (AM444)**
Gritty, fine particles, ideal for pastel grounds.
- **MODELING PASTE COARSE PUMICE (AM445)**
Gritty, coarse particles, ideal for building textured surfaces.
- **MODELING PASTE EXTRA COARSE PUMICE (AM446)**
Gritty, extra coarse particles, ideal for building textured surfaces.

- **GEL MEDIUM (AM451)**
Transparent gel which offers a durable, flexible and waterproof surface once dry.
- **GEL MEDIUM HARD (AM452)**
Hard gel surface which is durable and flexible. Dried surface is hard enough to draw on.
- **GEL MEDIUM HIGH SOLID (AM454)**
Gel Medium High Solid allows for higher peaks and valleys in surface texture.
- **GEL MEDIUM MATTE (AM453)**
Gel Medium Matte when mixed with acrylic paint will result in varying degrees of matte finishes.
- **GEL MEDIUM SOFT BODY (AM455)**
Increases softness and improves flow properties.
- **GEL MEDIUM HEAVY BODY (AM456)**
Excellent for holding peaks. Increases viscosity, sheen and transparency.
- **GEL MEDIUM CRYSTAL (AM457)**
A self-leveling glazing gel with a high gloss finish.

GELS

Professional quality at an affordable price.

200ML Squeeze Bottle

- GLOSS MEDIUM (AM571) 200ml**
A painting and glazing acrylic medium resulting in a durable gloss finish. Transparent and waterproof when dry, Holbein Acryla Gloss Medium should not be used as a final varnish.
- MATTE MEDIUM (AM572) 200ml**
Mix with acrylic colors to achieve varying degrees of matte finish. Transparent and waterproof when dry, Holbein Acryla Matte Medium should not be used as a final varnish.
- PAINTING MEDIUM (AM575) 200ml**
Transparent and waterproof once dry, Holbein Acrylic Painting Medium is excellent for glazing, while diluting and extending colors.
- CRYSTAL VARNISH (AM573) 200ml**
A high gloss, fast drying final varnish intended for use as a protective coating over finished artwork. Ideal for acrylic paintings on paper and canvas. Can be used on clay, wood and unglazed pottery.
- MATTE VARNISH (AM577) 200ml**
A matte varnish intended for use as a protective coating over finished art work. Ideal for acrylic paintings on paper and canvas. Can be used on clay, wood and unglazed pottery.
- RETARDING MEDIUM (AM574) *180ml Glass Jar**
Retarding Medium is intended to slow the drying time of acrylic paints. One or two drops will keep paints fresh on the palette.

300ML Poly Bag

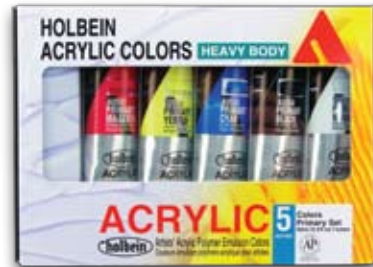

- CLEAR GESSO (AM437)**
Translucent and unabsorbed painting ground base. Mix with acrylic color. Excellent tooth for pastel and colored pencil.
- WHITE "M" GESSO BASE (AM432)**
Ideal white painting ground base.
- BLACK GESSO BASE (AM436)**
Ideal black painting ground base.

ACRYLIC SETS

HEAVY BODY ARTIST ACRYLIC

Professional quality at an affordable price.

6

Colors Basic Set
60ml (2.0 fl. o.z.) tubes

Item #AU7981

Six essential colors to start painting with Holbein Heavy Body Acrylic.

Set Contents: Quinacridone Red, Imidazolone Lemon, Viridian Hue, Phthalo Blue Red Shade, Mars Black and Titanium White.

5

Colors Primary Set

Artist Materials

HOLBEIN HEAVY BODY ARTIST ACRYLIC

www.holbeinartistmaterials.com

I use Holbein Acrylic Paint and my paintings hang in museums. I have painted with Holbein Acrylic Paints for twenty years, on canvas as well as on 300 lb watercolor paper. I have personally tested each and painted with the new complete line of 113 colors. They flow smoothly from my brush and intermix beautifully and cohesively every time. The Heavy Body is light, yet thick enough for creating texture when I want it.

The 100% Acrylic Polymer Emulsion stays flexible and water resistant when dried, which gives me great confidence to experiment more. Holbein Heavy Body Acrylic can take it!

This longtime professional company continues to move forward with the times, adding my favorite contemporary colors, plus expanding to a larger 60ml size tube. Imagine – more great paint in a larger package. Archival is not a concern. Each tube has the pigment rating as well as the permanency. A real swab of paint color on each label not only shows the actual color, but the opacity as well. This array of gorgeous colors plus their neutral grey series are plenty to satisfy my painting curiosity.

~ ROBERT BURRIDGE - *Master Acrylic Painter*

113 carefully detailed colors

- A completely re-engineered Artist Acrylic which will consistently deliver more color vigor and higher lightfast ratings. Holbein's new acrylic range is a high quality, heavy body artist acrylic, specifically designed to add more luster and brilliance to your painting.
- Utilizing the best traditional organic pigments as well as the latest and the most up to date inorganic pigments, the NEW Holbein Heavy Body Artist Acrylic range affords the user seamless and effortless mixing and thinning.

Superior, smooth and vivid in every way. The NEW Holbein Heavy Body Artist Acrylic range is certain to meet and surpass the demands of the modern artist, whether painting small or large, opaque or transparent.

PRIMARY COLORS

Holbein Heavy Body Acrylic Primary Colors are ideal for color theory instruction and plein aire painting. Each primary color offers exceptional handling qualities and excellent lightfast ratings. High chroma and superlative hue allows for cleaner mixing and non-muddy results. The density and specific gravity of the pigments in each primary color is well balanced, ensuring consistent results in the classroom, studio or while painting en plein aire.

ACRYLIC
MEDIUMS

6 MODELING PASTE

300ml POLY BAGS

HOLBEIN ACRYLIC MEDIUMS

Exceptional quality, professional grade Acrylic Mediums designed to meet the demands of today's acrylic artist.

Holbein's 6 Pastes and 7 Gels along with 3 Base Gesso painting grounds are sure to support all of your artistic creativity.

Poly bags are tough, durable and designed to stand up for easy storage.

- **MODELING PASTE (AM441)**
Mix with acrylic colors to achieve unique shapes and textures. Dry surface can be carved.
- **MODELING PASTE HIGH SOLID (AM442)**
Ideal for layering. Allows for higher peaks and valleys.
- **MODELING PASTE LIGHT (AM443)**
Allows for thick lightweight (fluffy) applications.
- **MODELING PASTE PUMICE (AM444)**
Gritty, fine particles, ideal for pastel grounds.
- **MODELING PASTE COARSE PUMICE (AM445)**
Gritty, coarse particles, ideal for building textured surfaces.
- **MODELING PASTE EXTRA COARSE PUMICE (AM446)**
Gritty, extra coarse particles, ideal for building textured surfaces.

ACRYLIC
MEDIUMS

7 GEL MEDIUM

300ml POLY BAGS

- **GEL MEDIUM (AM451)**
Transparent gel which offers a durable, flexible and water-proof surface once dry.
- **GEL MEDIUM HARD (AM452)**
Hard gel surface which is durable and flexible. Dried surface is hard enough to draw on.
- **GEL MEDIUM HIGH SOLID (AM454)**
Gel Medium High Solid allows for higher peaks and valleys in surface texture.
- **GEL MEDIUM MATTE (AM453)**
Gel Medium Matte when mixed with acrylic paint will result in varying degrees of matte finishes.
- **GEL MEDIUM SOFT BODY (AM455)**
Increases softness and improves flow properties.
- **GEL MEDIUM HEAVY BODY (AM456)**
Excellent for holding peaks. Increases viscosity, sheen and transparency.
- **GEL MEDIUM CRYSTAL (AM457)**
A self-leveling glazing gel with a high gloss finish.

ACRYLIC
MEDIUMS

6 200 ML
MEDIUMS
SQUEEZE BOTTLES

- **GLOSS MEDIUM (AM571) 200 ml**
A painting and glazing acrylic medium resulting in a durable gloss finish. Transparent and waterproof when dry, Holbein Acryla Gloss Medium should not be used as a final varnish.
- **MATTE MEDIUM (AM572) 200 ml**
Mix with acrylic colors to achieve varying degrees of matte finish. Transparent and waterproof when dry, Holbein Acryla Matte Medium should not be used as a final varnish.
- **CRYSTAL VARNISH (AM573) 200 ml**
A high gloss, fast drying final varnish intended for use as a protective coating over finished artwork. Ideal for acrylic paintings on paper and canvas. Can be used on clay, wood and unglazed pottery.

AVAILABLE SOON

- RETARDING MEDIUM (AM574) 200 ml
- PAINTING MEDIUM (AM575) 200ml
- MATTE VARNISH (AM577) 200ml

ACRYLIC
MEDIUMS

3 GESSO BASE PAINTING GROUND

300 ML POLY BAGS

Unique poly bags use less packaging than standard rigid plastic containers, resulting in less post-consumer waste.

Poly bags are tough, durable and designed to stand up for easy storage.

- **GESSO CLEAR (AM437)**
Translucent and unabsorbed painting ground base. Mix with acrylic color. Excellent tooth for pastel and colored pencil.
- **GESSO WHITE “M” BASE (AM432)**
Ideal white painting ground base.
- **GESSO BLACK BASE (AM436)**
Ideal black painting ground base.

* See page 26 for Holbein Colored Gesso.

ARTIST LIQUID ACRYLIC

Aeroflash contains high density pigments ground to fine-grain size (0.001 to 0.004mm) in an acrylic resin manufactured to the uniform viscosity most suitable for airbrush use. The result is a deep clear color of non-toxic archival permanence that will not clog even a 0.1mm aperture. Aeroflash utilizes a pure water soluble acryl which ensures no shift in color tone from liquid to dried color. What you see “wet” is what you get when “dry”. Transparent and Opaque colors available in 35ml bottles. Whites and Blacks also available in 100ml bottles.

COLORED GESSO

Available in 21 colors Holbein Colored Gesso is thick, creamy, and offers superb coverage and great opacity. Holbein Colored Gesso is made with high chroma and lightfast pigments. It can be used as a successful ground or as a painting medium on its own. Finishing to a mat surface, Holbein Colored Gesso is the ultimate versatile medium. Holbein's innovative and unique package design provides for easy pouring and storage. No more rigid plastic containers with difficult lids to open because of crusted color around the top!

FACTS

No solvents
100 Colors
Buttery

- 100 highly pigmented Artist Grade Colors suspended in a water soluble cold pressed linseed oil. 40ml and 110ml tubes.
- DUO offers excellent lightfast ratings similar to that of traditional oil color.
- 17 "Elite" labeled colors signify the use of heavy metal pigments, including cadmiums and cobalts.
- DUO is compatible with all media including traditional oil color, watercolor, acrylic, gouache and acryla gouache.
- When mixing DUO with traditional oil color, water solubility will be lost when exceeding 30% traditional oil color in the mixture.
- DUO can be thinned and cleaned up with water.

FAITS

Aucun solvant requis
100 couleurs
Texture souple

- Une gamme de 100 couleurs très riches en pigments et de qualité digne des plus grands artistes. Un mélange conçu à base d'huile de lin pressée à froid, mais qui se dilue à l'eau, évitant ainsi la nécessité de tout solvant. Disponible en tubes de 40ml et 110ml.
- La gamme DUO présente une excellente résistance à la lumière, tout comme les huiles traditionnelles.
- La gamme DUO compte 17 couleurs "Élite" composées de pigments plus lourds comme le cadmium et le cobalt.
- La gamme DUO est compatible avec tous les médiums, incluant les huiles traditionnelles, l'aquarelle, l'acrylique, la gouache et la gouache Acryla
- N.B. Lorsque mélangées et que les proportions d'huiles traditionnelles excèdent 30 %, les couleurs Duo peuvent perdre leur faculté de dilution à l'eau
- Se diluent et se nettoient à l'eau.

- Una gama de 100 colores de vibrantes matices confiables desde la que se puede realizar cualquier color.
- DUO ofrece la misma permanencia y características archivadas como tradicional de color petróleo.
- Muchos colores emotivos incluyendo Cadmiums, Quinacridones y Cobalts que ofrecen una mayor brillo y permanencia.
- DUO se puede mezclar con colores tradicionales de petróleo y medios de agua incluyendo acrílico, acuarela, gouache y tinta.

17 "Elite" labeled colors signify the use of heavy metal pigments including cadmiums and cobalts.

COLOR GUIDE

Tips for working with DUO

- Drying time is comparable to traditional oil straight out of the tube (no water/mediums).
- Water will matte down the surface when mixed with DUO, like turpentine does to oil.
- Quick Dry Medium or Painting Oil is ideal for glazing.
- Traditional oil mediums may be used, but mixture will lose water solubility.
- Traditional oil painting techniques apply for DUO (fat over lean).
- Water aids when mixing DUO with other water based media (watercolor, gouache, acrylic), to ensure a durable finish.
- Use traditional oil varnish when sealing your DUO painting.
- A stiff synthetic brush is best when painting with DUO.

DUO MEDIUMS

- ### DUO Linseed Oil
- Increases the transparency and gloss finish while slowing drying time of DUO. Available in 55 & 200ml.
- Can be thinned with water.
 - Milky appearance from adding water will become clear when dry.
 - While DUO Linseed Oil may become cloudy over time, performance will not be affected.
- ### DUO Stand Linseed Oil
- A highly viscous, thermal polymerized linseed oil that increases the transparency of DUO. Available in 55ml.
- Produces a leveled and enamel gloss effect when mixing with DUO Colors and/or DUO Painting Medium.
 - Creates an elastic and durable film.
 - Can be thinned with water.
 - Milky appearance from adding water will become clear when dry.
 - While DUO Stand Linseed Oil may become cloudy over time, performance will not be affected.
- ### DUO Painting Oil Medium
- Enhances transparency and gloss finish while accelerating drying time. Aids in brush ability and flow. Great for detail. Available in 55 & 200ml.
- Use alone, or thin with water.
 - Milky appearance from adding water will become clear when dry.
 - DUO Linseed Oil can be added for stronger surface finish during final layers of painting.
 - Store in a cool dark place.
 - While DUO Painting Oil Medium may become cloudy over time, performance will not be affected.

- ### DUO Quick Drying Liquid
- Enhances transparency and gloss finish while dramatically accelerating drying time. Available in 55 & 200ml.
- When mixing DUO Quick Drying Liquid and DUO Color in equal parts, substrate surface will become tacky in as little as 30 minutes.
 - Adding too much DUO Quick Drying Liquid may cause unstable results. Do not exceed 50%.
 - Can be thinned with water, reducing the overall effect.
 - Milky appearance from adding water will become clear when dry.
 - While DUO Quick Drying Liquid may become cloudy over time, performance will not be affected.

- ### DUO Brush Cleaner
- A brush cleaning solution for DUO, oil, water and acrylic brushes. Available in 200, 500 & 1,000ml.
- Store in a cool dark place.
 - When cleaning traditional oil color brushes with DUO Brush Cleaner do not use brushes until completely dry.
 - No harsh smell and is nonflammable.

- ### DUO Quick Drying Medium Gloss Paste
- An aqueous paste medium that, when mixed with DUO, results in a transparent and gloss finish while dramatically accelerating drying time. Available in 50 & 110ml tube tubes.
- When mixing DUO Quick Drying Medium Gloss and DUO Color in equal parts substrate surface will become tacky in as little as 30 minutes.
 - Thick layers may cause wrinkling.
 - Can be thinned with water, reducing the gloss effects.
 - Milky appearance from adding water will become clear when dry.

- ### DUO Quick Drying Medium Mat Paste
- An aqueous paste medium that, when mixed with DUO, results in a translucent and mat finish while dramatically accelerating drying time. Available in 50 & 110ml tubes.
- When mixing DUO Quick Drying Medium Mat and DUO Color in equal parts substrate surface will become tacky in as little as 30 minutes.
 - Overall mat effect varies from color to color.
 - Thick layers may cause wrinkling.
 - Can be thinned with water, reducing the mat effect.
 - Milky appearance from adding water will become clear when dry.

Holbein Traditional Oil Color Ranges

ARTISTS' OIL COLOR

167 Highly Pigmented Colors
Uniform Viscosity
Intense Results

A favorite of artists world wide for over 70 years.

- 167 colors ground to achieve a uniform viscosity in cold pressed linseed oil.

- In the preparation, mixing, grinding, adjustment and filling stages of every color batch, Holbein ensures, by test inspection, that their optimum quality standards are always met. Holbein Artist Oil Color is adapted to the Munsell Color Standard and every color is therefore rated for hue, value and chroma.

- Holbein Artists' Oil Color utilizes the purest of available pigments and is manufactured to the highest standard of quality control in the industry.

- Available in 145 open stock colors in 20, 40, 110 and 330ml sizes, 11 transparent glazing colors in 20ml tubes, four foundation colors in 110ml tubes and seven whites in 50, 110, 170 and 330ml sizes.

40 Single Pigment Colors Exceptional Pigment Density High Chroma

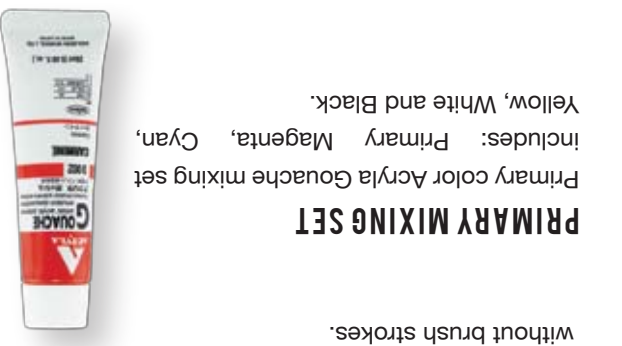

NEW for 2012 **VERNÉT SUPERIOR OIL COLOR**

Developed for artists of the 21st century, "Vernét Superior Oil Color", by Holbein, has been painstakingly produced using the most up to date production methods and the highest quality pigments available.

- The Vernét line offers 40 traditional colors utilizing pure single pigments and the finest quality refined linseed oil.

- Vernét colors offer oil painters superior adhesion, tinting strength, durability, smooth texture and excellent lightfast ratings with high chroma, transparency and pigment density.

- Strong, beautiful and stable colors make the new Vernét line from Holbein the "Dream Palette" of the great masters. Vernét offers the modern oil painter the most advanced and highest quality oil color range ever produced.

GOUACHE SÉRIE DESIGNER

HOLBEIN DRAWING INK

IMAGE BY GREG ESPINOZA 2012

Inkers **NUMBER ONE** choice for intense and super black finish.

Holbein Drawing Inks are formulated for an exceptionally smooth, vivid and water resistant finish. They are easy to work with, and are ideal for running through a technical pen, airbrush or brush. Holbein Drawing Inks are fully intermixable and offer excellent adhesion on most surfaces. Holbein Drawing Inks are widely used by Illustrators, Designers, Calligraphers and Artists world-wide. Available in 1 oz bottles with a precision dropper.

ARTISTS' WATERCOLOR

BRILLIANT WASHES INTENSE COLORS

108 COLORS
108 highly pigmented, vibrant and brilliant Artist Colors in 5 and 15ml tubes.

NO OX-GALL
Holbein adds no ox-gall to their watercolor. This gives the user greater control in the dispersal of their pigments while at the same time offering more intense colors.

FINELY GROUND
Holbein Artists' Watercolor is more finely ground than any other watercolor and will not deteriorate in the tube or on the palette.

WATERCOLOR MEDIUMS

6 MEDIUMS THAT ALLOW THE USER GREATER WORKING VERSATILITY

Watercolor Medium
Facilitates fine line and stroke development by improving flow.

Sizing Liquid
Artist grade sizing liquid used to reduce the absorbency of paper. Dilute with warm water and apply with a broad brush.

Gum Arabic Medium
An Artist grade medium which will, when mixed with watercolors, enhance gloss and transparency. Mixing with opaque colors, like gouache and poster colors, will also increase their transparency.

Iridescent Medium
An Artist grade medium designed to facilitate iridescent (pearlescent) effects when used with water based media.

Ox Gall
An Artist grade wetting agent. Holbein Ox Gall will improve flow and enhance wet into wet technique. It also improves the acceptance of watercolor on paper.

Gum Arabic Paste
Holbein Gum Arabic Paste when mixed with watercolors will result in an impasto effect.

PRIMARY MIXING SETS

Holbein Acryla Gouache, known for its water resistant finish and lack of color shift from wet to dried color, offers 5 primary colors available both in open stock and in a primary mixing set.

Holbein Gouache, is renowned for its smooth characteristics, high permanency and lack of muddying and graying when mixed. Five primary colors available both in open stock and in a primary mixing set.

The Holbein Primary Colors, Cyan, Magenta, Yellow, White and Black, offer excellent handling qualities, very high chroma and exceptional lightfastness.

Holbein Primary Colors have superlative hues and high chroma. Since the density and the handling characteristics are well balanced, mixing two of these colors equally will produce secondary colors easily. Mixing three of these colors equally will produce black and dark grey. Producing a comprehensive grey scale has never been easier.

Holbein has also created a Primary Black and a Primary White. These two colors have been produced because, unlike Ivory Black and Permanent White, they offer the same specific gravity as the other three Primary Colors. The result is a set that will produce colors identical in volume and weight when mixed together.

HGC HOLBEIN DESIGNER GOUACHE COLOR GUIDE

Holbein Artists' Watercolor...The Artist's Choice!

Holbein watercolor produces as powerful, clean darks. Well as sedoso y mantendrá sus características limpias, crujiente y brillantes durante largos periodos de tiempo.

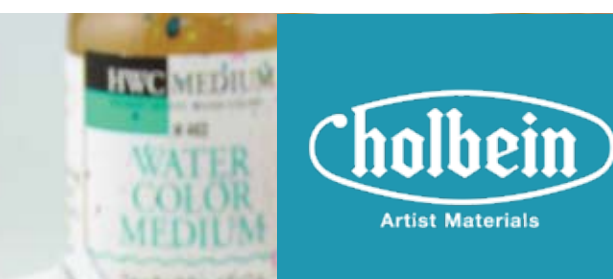

- Holbein artista acuarela es liso y sedoso y mantendrá sus características limpias, crujiente y brillantes durante largos periodos de tiempo.
- Ofrece óptima permanencia, la intensidad de color y el color vigor, Holbein artista acuarela no va deteriorándose en la paleta o una sonda con el tiempo.
- Una gama de 108 colores de pureza huedo ofrece brillantez en tubos de 5ml y 15ml.

Holbein Artista Acuarela

- 108 couleurs d'aquarelle brillantes et à haut niveau de pigmentation offertes en tubes de 5ml et de 15ml.
- Holbein n'ajoute pas de fil de boeur à ses aquarelles, ce qui donne à l'utilisateur un contrôle accru sur la dispersion des pigments, ainsi qu'une couleur plus riche.
- Les couleurs d'aquarelle Holbein sont composées d'une moure plus fine que toute autre aquarelle et demeurent intactes dans le tube et sur la palette.
- Les aquarelles Holbein donnent des lavis transparents et brillants, ainsi que des forcés nets et puissants.
- Les couleurs d'aquarelle Holbein...Le choix incontesté de l'artiste.

Holbein adds no ox-gall to their watercolor. This gives the user greater control in the dispersal of their pigments while at the same time offering more intense colors.

Holbein Artists' Watercolor...The Artist's Choice!

- Antique "Irodori" Acuarela Vernet
- Dispone de 48 colores altamente saturados y brillantes, creados para reproducir una amplia gama de colores, anteriormente utilizada por los pintores japoneses, 15 siglos atrás.
- Irodori antiguo Acuarela granulados, es más opaco que la acuarela contemporánea y ofrece una densidad del pigmento excepcional.
- Debido al alto contenido en pigmentos al secar Irodori se adherirá a su paleta como la gama de colores tradicionales de acuarela transparente húmeda. Por ello es recomendable que cuando trabaje con Irodori, uno debe apretar solo lo suficiente para utilizar solo lo necesario y dejar el resto en el tubo.
- 48 colores en unidades disponibles en tubos de 15 ml, 40 ml de blancos y cuatro conjuntos profesionales.

Watercolor Mediums

Seven Watercolor Mediums that allow the user greater working versatility.

W462 Watercolor Medium
When mixed with watercolors, Holbein Watercolor Medium facilitates fine line and stroke development by improving flow. Available in a 55ml jar.

W466 Masking Ink
Easy flow and non staining masking fluid. Protects paper surface from over-painted watercolor and gouache layers. Remove masking application within 24 hours to ensure best results. Available in a 55ml jar.

W468 Sizing Liquid
Artist grade sizing liquid used to reduce the absorbency of paper. Dilute with warm water and apply with a broad brush. Available in a 55ml jar.

W461 Gum Arabic Medium
An Artist grade medium which will, when mixed with watercolors, enhance gloss and transparency. Mixing with opaque colors, like gouache and posters colors, will also increase their transparency. Available in a 55ml jar.

W464 Iridescent Medium
An Artist grade medium designed to facilitate iridescent (pearlescent) effects when used with water based media including: watercolor, acrylic, gouache and acryla gouache. Available in a 55ml jar.

W465 Ox Gall
An Artist grade wetting agent. Holbein Ox Gall when mixed with watercolors will improve flow and enhance wet into wet technique. It also improves the acceptance of watercolor on paper, particularly hard sized papers. Available in a 55ml jar.

W463 Gum Arabic Paste
Holbein Gum Arabic Paste when mixed with watercolors will result in an impasto effect. Available in a 15ml tube.

Spray Bottle
Create Highlights
Explore Textures
Add depth to your work

Give your paintings more dynamic effects with a Holbein Spray bottle.

A great tool for highlighting and exploring landscape textures in your paintings.

Create interesting textures and enhancements by spraying onto dried color or wet into wet.

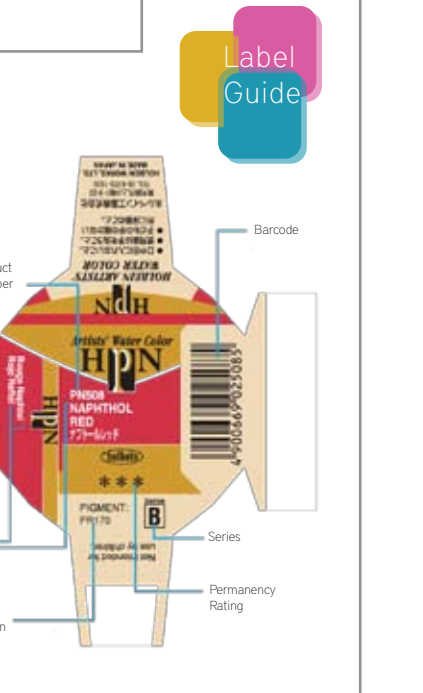

RECOMMENDED USE: Squeeze Holbein moist tubed watercolor directly into spray bottle. Add water & shake. Test spray before use on painting. Add more color to increase vibrancy.

HOLBEIN PAN WATERCOLOR
