FRAMING & ARTISTS TAPES

Lineco tapes are far superior to common tapes and adhesives found elsewhere. All paper, fabric and adhesives that are used in the manufacture of Lineco products are acid-free and carefully controlled to assure archival quality.

When to Choose Gummed Tapes: Gummed (or water activated) are the first choice for most valued art. Conservators prefer gummed tapes over pressure sensitive tapes because gummed tapes are easily removed with water. Gummed adhesives are strong and stay attached over a wide range of temperatures and humidity.

When to Choose Pressure Sensitive Tapes: Pressure sensitive (or self-stick) tapes are useful for quick hinging of art not considered valuable or when the artwork is sensitive to water based adhesives, as with Giclee prints. Although safe, these neutral pH self-stick tapes require mineral spirits (solvents) for removal. Pressure sensitive adhesives may slip if the art is heavy or if temperature/humidity are high.

For Originals and Limited Editions - Water Reversible Tapes

Hayaku® Gummed Japanese Hinging Paper

PAT PASSED ANSI ISO 18916

Make instant Japanese hinges easily. Hayaku Japanese mulberry paper gives a thin yet strong and supple hinge. The pH neutral paper and adhesive assures long term quality.

HAYAKU® Instant Japanese Hinges

Item No.	Size
533-0752	1" x 100 ft.

Gummed Paper Tape

Good for general hinging. The acid-free, lignin-free, buffered paper will support most artwork. Fast setting neutral pH adhesive.

Item No.	Size
533-0751	1" x 130 ft.

Gummed Linen Hinging Tape

Great for heavy watercolors or collages. The 65/55 thread count, acid-free fabric gives plenty of strength. The high tack neutral pH adhesive sets fast and lays flat.

Item No.	Size	Item No.	Size
L533-1025	1" x 30 ft.	L533-1520	1.5" x 300 ft.
L533-1050	1" x 150 ft.	L533-2020	2" x 300 ft.
L533-1010	1" x 300 ft.	533-3020	3" x 300 ft

For Priceless Originals - Japanese Papers and Starch Adhesive

Museum Mounting Kit

Original Japanese Paper & Wheat Starch

Everything you need to make traditional museum quality mounts: wheat starch adhesive, medium weight mulberry paper, blotters, polyester separators, mat hinging tape and instructions.

Item No.
L533-2000

(More adhesives on pg.5)

Japanese Paper Assortment

A genuine Japanese paper assortment for a wide range of applications. Mulberry for heavier works, Kizukishi for medium weight and Tosa Tengujo for the light application. All are long fiber and very strong. Assortment includes one 5" x 7" sheet of each.

Item No.
682-2402

For Casual Hinging - Self-Adhesive Tapes

Self-Adhesive Linen Hinging Tape

A favorite for hinging window mats to backboard or attaching art. The very fine linen cloth is flexible yet strong. The neutral pH acrylic adhesive gains strength overnight.

Item No.	Size	Color
L533-1055	1.25" x 150 ft.	White

L533-1017	0.75" x 50 ft.	Black

NEW!

Abaca.sa™ Paper Hinging Tape

For Digital Art

PAT PASSED ANSI ISO 18916

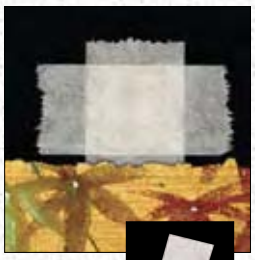

abaca.sa™ Self-Adhesive Tape

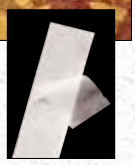

Abaca.sa™ self-adhesive hinging tape incorporates the strength and supple nature of Abaca paper (manila hemp), along with a very strong acrylic adhesive that is permanent and non-yellowing. Gummed tapes are risky to use with Giclee inkjet prints because of their water sensitivity. In these cases a self-adhesive tape is a much safer alternative. Abaca.sa™ is strong enough to hold large digital prints, and supple enough to adhere to the print without distorting. Abaca paper is acid-free, biodegradable, and comes from a self sustainable plant.

Item No.	Size
533-0754	0.875" x 150 ft.

Self-Adhesive Hinging Tissue

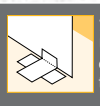

Here is the solution for mounting papayrus or thin papers where a hinge will show. The very thin, long fibered paper virtually disappears when applied. A neutral pH acrylic adhesive won't turn yellow with age.

Item No.	Size
L533-0125	1" x 35 ft.
L533-0126	1" x 98 ft.

V Hinge: Hinge is invisible allowing edges of art to show.

T Hinge: Use when hinge can be hidden by the mat.

Hinging Tips

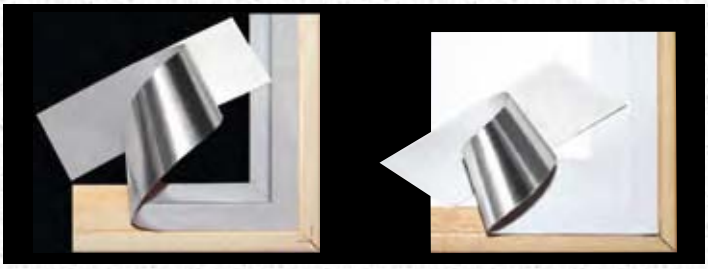

- Tear, don't cut, hinges to leave a feathered edge.
- Match the hinge strength to the art being mounted.The hinge should tear before the art.
- All hinges should be attached to the back of the art.
- Wait for gummed adhesives to absorb the water before application.

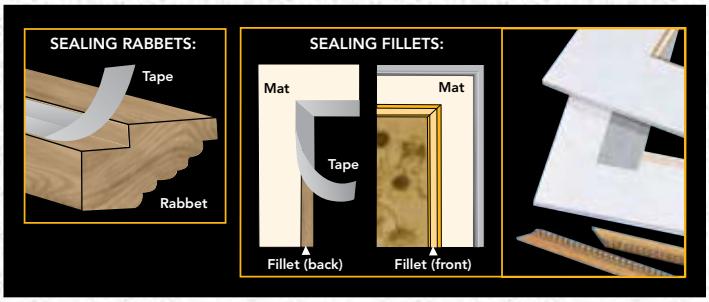

IN-FRAME PROTECTION

Frame backer, frame sealing and rabbet anti-stick tapes safeguard the artwork inside the frame.

Frame Sealing Tape - Rabbets, Fillets

Self-Adhesive Frame Sealing Tape

Frame sealing tape seals off raw wood rabbets and fillets to protect the art and stop acid migration. An acid-free, lignin-free buffered paper is laminated to a thin aluminum barrier layer and coated with an aggressive, acrylic adhesive that bonds firmly to raw wood. The aluminum provides a barrier that stops acid migration and meets the FACTS standard for maximum preservation framing.

Item No.	Size	Color

387-0154	1.25" x 500 ft.	White

Tyvek® Tape

This pressure sensitive white polyethylene Tyvek® tape displays incredible tenacity, even under the most rigorous of circumstances. Uses include hinging mats, binding folder spines, performing book repairs to battered books, as well as a variety of other uses. The pressure sensitive acrylic adhesive eliminates the sticky mess associated with moistenable adhesive backed Tyvek® tapes around valuable art work.

Item No.	Size
804-0150	1" x 150 ft.
804-1550	1.5" x 150 ft.
804-2250	2.25" x 150 ft.

Self-Adhesive I-Film™ Frame Sealing Tape

NEW!

PAT PASSED ANSI ISO 18916

Polyethylene is imbedded with a Corrosion Intercept® Technology copper matrix and coated with strong acrylic adhesive. The Corrosion Intercept® matrix stops acid, corrosive gases and retards mildew and mold. I-Film™ is flexible, strong and puncture-resistant for easy application. Strong adhesive sticks to raw wood. Use I-Film™ for sealing raw wood fillets, rabbets, frame backs and frame packages to protect from acid migration, corrosive gasses, mildew and mold.

I-Film Corrosion Intercept™ Protection

Item No.	Size
034-2000	1.25" x 85 ft.

Self-Adhesive Volara® Foam Rabbet Tape

Line frame rabbets to provide padding and a slippery surface to protect canvas transfers, digital art and oils from sticking to the wood rabbet. Volara® is an acid free, closed cell, inert polyethylene foam coated with a stable acrylic adhesive.

Item No.	Size
018-1436	0.25" x 108 ft. x 0.03" thick

Frame Backing Paper

Tyvek® Frame Backing Paper

A unique frame backing material that is acid-free and contains no damaging chemicals that can affect framed artwork. Tyvek® is easily cut and worked like traditional paper frame backing materials, yet is puncture and moisture resistant, and won't attract insects.

Item No.	Size	Color
613-0039	36" x 210 ft.	White

Protect your valuables the way the museums do:
Use acid free tissue (pg.12) to guard against dust and abrasion, layer between art or documents, wrap valuables.

Frame Backer Paper

Acid-Free Buffered Frame Backer Paper

Use this attractive gray paper to add value and differentiate your museum quality framing jobs. This acid-free buffered paper won't harm the art and won't puncture like everyday brown or black craft paper. Moderate porosity allows the frame package to breath. The standard 40 lb. weight papers cut and handle easily.

Standard Weight 40 lbs.

Item No.	Size	Color
613-0037	36" x 300 ft.	Gray

MOUNTING CORNERS & STRIPS

Lineco corners and strips mount prints, photographs and documents without adhesives ever contacting the artwork. They provide support, and allow for the expansion and contraction of the art within the frame. Artwork can always be removed in its original, pristine condition.

A Word On Plastics

Lineco uses only archival grade plastics that contain no harmful PVC plasticizers or acidic compounds.

- Polyester is the clearest plastic and is typically the first choice of museums. However, because of a slight static charge polyester is not recommended for use with pastels, charcoal or similar mediums.
- Polypropylene is inert, acid-free, safe and has less static charge. It is widely used for mounting.

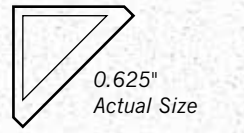

Mounting Corners for Most Originals, Limited Editions and Photographs

Self-Adhesive Polypropylene Corners

PAT PASSED ANSI ISO 18916

Lineco polypropylene corners provide extra strength and sizes to accommodate larger art pieces. They are safe, and acid-free. The full view variety minimizes the border required to hide the corner under the window mat. Use for light to heavy weight photos and art.

See-Thru Mounting Strips

See-Thru Mounting Strips

Lineco See-Thru Mounting Strips are made from conservation quality materials. Clear polyester is bonded to a 2 ply mat with a self-adhesive back. Simply position the artwork and adhere the strips to the mount board. No adhesive touches the art. Accommodates larger art and can be cut to smaller sizes for a particular job. See-Thru strips provide several advantages over corners; a few along the bottom provide full length support, application is easy, the art stays flat, and the strips are applied around the edges. The polyester may be trimmed to hide the strip with borders as small as 1/8".

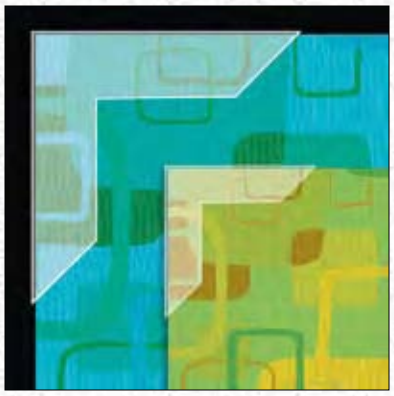

Item No.	Size	Qty/Pkg
L533-4015	4"	60
L533-4020	12"	60

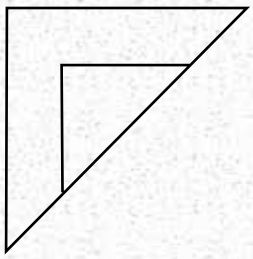

Adhesives for a wide variety of art, framing and repair. Wheat and rice starch have been used by conservators and artists for centuries. Methyl cellulose is used for paper repair, hinging, and bookbinding. Neutral pH adhesive is used for bookbinding, collage or other art.

1.25" & 3" Full View

Wheat and Rice Starch Adhesives

Both wheat and rice starch adhesives are a highly purified grade of the starch used for traditional museum mounting or artistic creations. Both require cooking. Although wheat starch is most commonly used and rice starch has been called stronger, no conclusive research has been offered to distinguish between the two. Use whichever seems best for you.

Pure Wheat Starch

Item No.	Wt.
L615-1002	2 oz.
L615-1008	8 oz.

Pure Rice Starch

Item No.	Wt.
L615-1502	2 oz.
L615-1508	8 oz.

Microwave Cooking for Wheat/Rice Starch

Add one part starch powder to six parts water. Stir to mix completely. Cook in microwave at medium high setting for 10 seconds. Remove and Stir. Repeat cook/stir cycles until paste thickens and becomes translucent. Cover and let stand.

Self-Folding Corners

Crystal clear archival mounting corners allow safe mounting of magazines, prints, photographs and documents. They are prescored to aid application, and are made from polyester. Peel and stick tape secures each corner in place. Available in 5/8" or 7/8" size.

Item No.	Size	Qty/Pkg
L545-2336	0.625"	100
545-2337	0.875"	100

Methyl Cellulose

When dissolved in water methyl cellulose powder produces a liquid adhesive which is neutral pH, nontoxic, vermin proof, does not decompose, and dries clear. Easily reversed with cold water. Use for repair, bookbinding, art construction and hinging.

Item No.	Wt.
793-1001	1.5 oz.

Stamp/Art Mounting Strips

For mounting stamps and art on paper

Stamp/Art Mounting Strips mount stamps and art easily and safely. The thin folded polyester sling cradles the art in the fold to support without adhesive touching the art. An adhesive strip on the back attaches to the mount board. Strips are made of thin, crystal clear 2mil polyester folded into a sling 2" high by 6" long. A peel-and-stick adhesive strip on the back allows easy attachment to the mount board. Use the full 2" height at top and bottom for holding larger art, or at the bottom as a sling for stamps less than 2". Trim to form an unobtrusive top and bottom mount for smaller stamps and art.

Item No.	Size	Qty/Pkg
L533-4030	2" x 6"	50

White Neutral pH Adhesive

Neutral pH adhesive is used for artistic creations such as collages, adhering mats, objects within a frame and bookbinding. It is not recommended for attaching hinges to art. This PVA formula is pH neutral, has excellent lay flat properties, good open time and is quick setting. It will not become brittle with age and is remoistenable with water.

BOOKBINDING TOOLS & SUPPLIES

Lineco's line of bookbinding prducts has grown over many decades and today includes a very comprehensive line of unique tools, accessories, and supplies that are used throughout the world by bookbinding professionals and enthusiasts.

Glue Brushes NEW!

Designed for book-binding and adhesive applications, the dense natural bristles load and carry lots of glue and spread glue evenly over large surfaces. Metal free construction will not rust.

Item No.	Size
870-890	0.5"
870-891	0.75"

Bone Folder

These genuine cattle bone folders are used for making creases or folds on tapes and papers without causing the paper to become shiny. One end pointed, one rounded.

Item No.	Size
870-900B	Small, 5.5" x 0.75"
870-901B	Large, 8" x 1"

Bone Scorer

Makes an excellent crease in paper or a line without using pencil. Genuine cattle bone.

Item No.	Size
870-905B	4.875" long

Light Duty Awl

A light duty awl adequate for many bookbinding projects. The fine point produces holes properly sized for sewing.

Item No. 870-888

Medium Duty Awl

Made of stainless steel and featuring a beauti-fully designed curved handle, this awl combines excellent control and good punching force.

Item No. 870-889

Heavy Duty Awl

A wooden ball handle fits the hand comfortably for heavy duty punching while providing good control.

Item No. 870-885

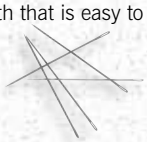

Micro Spatula

This spatula is wonderful for applying paste to small areas and other delicate binding and repair tasks. The springy ends enable precise control and the polished stainless steel cleans easily.

Item No. 870-003

Bookbinder's Needles

Sized to accommodate the sturdy bookbinding threads, these needles have a length that is easy to handle and a slightly blunted point to reduce paper snags.

Item No.	Qty/Pkg
870-887	5

Binding Materials

Thread

Strong genuine Irish linen thread. For hand sewing. Expands with moisture to prevent tears in the paper.

Tape

Genuine linen tape is closely woven for strength. 3/8" width accommodates most popular size books.

Super

Fine open weave cotton gives good adhesive penetration to unite signatures while leaving the backbone flexible.

Item No.	Description	Size
402-0050	Thread	50 yds
870-6563	Tape	60"
870-1021	Super	18" x 30"

Silk Headbands

Attractive finishing touch for bound books.

Item No.	Size	Color
870-2020	6"	Black
870-2021	6"	White
870-2022	6"	Red

Acid-Free Davey Board

(Binders Board)

This strong acid-free board is the choice of binding professionals. Unlike cheaper laminated chipboard, Lineco's dense single ply board is very stable and resists warping. The superior density keeps corners and edges from denting. For books, boxes and slipcases.

Large Sheets - 30" x 41"

Item No.	Boards/Thickness	Sh/Pkg
473-0067	70 Pt (.067")	22
473-0082	80 Pt (.082")	18
473-0098	100 Pt (.098")	15

Small Sheets - 15" x 20.5"

Item No.	Boards/Thickness	Sh/Pkg
473-4070	70 Pt (.067") Sheet	4
473-4080	80 Pt (.082") Sheet	4
473-4100	100 Pt (.098") Sheet	4

Beeswax

Genuine beeswax to lubri-cate thread and prevent tangles.

Item No.	Size
987-1001	1 oz.

Cloth Hinging/ Finishing Tapes

Use for joining the edges of boxes, adding a finishing touch to the edges of boards or hinging album pages. These self-adhesive tapes are attractive and easy to use. The satin tapes have a low luster finish in three colors. The woven tape has a matte black cloth finish in several widths.

Linen Hinging Tape

Item No.	Size	Color
L533-1016	1.25" x 35 ft.	Black
L533-1017	0.75" x 50 ft.	Black

870-BC14	1.25"	3

Screw Posts

Our screw posts and extensions are just the thing for creating albums, journals and homemade books.

Item No.	Size	Qty/Pkg
870-2050	0.5"	3
870-2052	1"	3
870-2054	2"	3
870-2055	0.5" Extension	3

Repair and cleaning tools are useful to repair and stabilize art when economics or other factors do not warrant treatment by a trained conservator.

Book Repair Tape

Both the 1" and 2" tapes provide quick, safe repairs or stabilization for torn art, books or documents. They use a strong, very thin, acid-free tissue coated with neutral pH self-stick adhesive. When applied, the tape virtually disappears to give an unobtrusive and safe repair. While the repair is permanent the tape may be removed with mineral spirits if desired.

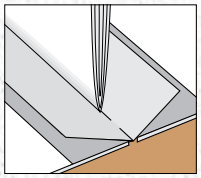

1" wide tape for attaching covers to signature. Perforated to fold easily. Gummed, water-activated.

Item No.	Size
533-0124	1" x 36 ft.

2" wide tape for assembling cover blanks and general book repair. Gummed, water-activated.

Item No.	Size
533-2024	2" x 48"

Quick Bind Tape

White gummed tape for making quick books

Two pieces of gummed tape are sewn together with the adhesive facing outward. The pamphlet is attached to one side, the covers are attachd to the other to form a book.

Item No.	Size
739-1202	2" x 36"

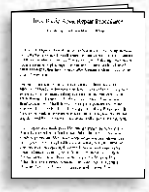

Spine Repair Tape

Self-adhesive, 2"-wide tape for attaching torn book covers.

Item No.	Size	Color
550-1505	2" x 45 ft.	Black
550-1506	2" x 45 ft.	White

Three Basic Book Repair Procedures

by Carole Dyal and Pete Merrill-Oldham

Instructions for carrying out three basic cost-effective procedures for repairing hard-cover volumes.

Item No. 144-0002

Transparent Mending Tissue

This very thin and extremely transparent pressure sensitive archival mending tissue is non-yellowing, removable with solvents, and has a neutral pH. To use, dispense a length of the tissue, place over the tear, and burnish with a bone folder.

Item No.	Size
L533-0017	0.5" x 50 ft.

Document Repair Tape

Same as the Transparent Mending Tissue but 1" wide for larger repairs. It is a favorite of both conservators and collectors. Easy to use, just place over tear and burnish with bone folder.

Item No.	Size
901-0198	1" x 35 ft.
533-0198	1" x 98 ft.

Weights

Beautifully crafted weights give framers an extra hand to apply pressure to hinges, repairs or other applications.

Item No.	Size	Weight
Steel Shot		
898-0441	4" x 4.5" x 1.5"	5 lbs.
Sealed Brick		
898-0050	8.5" x 4.5" x 2"	5 lbs.
Fabric Weight Bags		
969-1101	1.375" x 4.5"	0.5 lb.
969-1201	1.5" x 6"	1 lb.

Document Cleaning Pad & Powder

Lineco's Document Cleaning Pads are recommended for cleaning dusty or dirty paper items. These pads contain a soft, grit-free powder that absorbs and cleans surface dirt from paper.

Item No.	Size
782-1004	One Cleaning Pad
782-1000	2 lb. can of powder

pH Testing Pen

An easy, convenient method for distinguishing between safe alkaline paper and board, and unsafe acidic paper and board. Easy to use, simply draw a line. The chlorophenol red indicator solution will turn a purple color on any paper with a safe pH of 6-8 or higher. Any other color would indicate a material most unsuitable for conservation purposes.

Item No. L533-0023

Leather Preservative/Restorer – Fredelka Formula

Leather Preservative/Restorer is a unique product which has been thoroughly tested and proven to give outstanding results on fine leather bindings. Easily applied rich cream penetrates deeply into leather to produce a scuff resistant surface with a rich patina to rejuvenate, restore and preserve. A compound of animal and other nondrying oils, it contains no flammable or volatile components. Chemically neutral with defensive buffers to guard against external pollutants. Fredelka Formula will not leave an oily or sticky finish on books.

Item No.	Size
532-0875	8 oz.

BOOKCLOTH

From the finest European bookcloth manufacturer, Lineco has a line of superior weaves and colors that are both functional and archival.

Bookcloth

Lineco's bookcloths are made from fine quality rayon fabric and are backed with a ph neutral (acid-free) paper that works well with Lineco's PVA adhesive. Bookbinders will enjoy working with these bookcloths.

CLEAR PRESENTATION & STORAGE ENCLOSURES

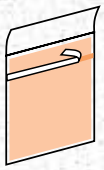

Lineco provides several levels of clear archival plastic storage and presentation enclosures. All are made from the finest quality archival polyester or polypropylene to provide excellent visibilty and protection for photos, art and documents.

No adhesive touches the art

Photo/Art Bags

An economical reusable archival storage alternative, Photo/Art Bags are manufactured with archival grade 2 mil polypropylene. The resealable adhesive flap allows repeated easy access to the contents, seals out dust and dirt. Two mil polypropylene protects from fingerprints and skin oils while showing the contents.

"Easy Locking" Side Flap

Two Sides Sealed

Print Sleeves - Digital & Traditional

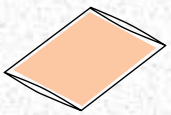

Protect, preserve and present your images; for inkjet, laser and all photographic prints

Archival print sleeves protect prints from moisture, fingerprints, scratching, dirt and harmful airborne pollutants. Sleeves are made of ultra-clear, acid-free and pvc-free polypropylene, and allow for easy viewing. Sleeves help prevent costly reprints due to damage, fading or excessive handling. Protect your prints the way professional photographers do for long term storage. Packages of 25.

Self-Sealing Polyester L-Velopes®

The choice of museums for clarity and support

L-Velopes® are manufactured from archival quality crystal clear polyester. Heat sealing prevents any harmful adhesives from damaging the contents. L-Velopes® support their contents and protect them from stress, dirt, fingerprints and atmospheric pollutants. Two adjacent sides open (figure 1) so artwork slides safely into place (figure 2). Flaps then fold over to make a non-adhesive seal (figure 3). The process is easily reversible, leaving the artwork in its original, pristine condition and the L-Velope® ready to reuse.

Unbuffered Interleaving Tissue

Non-buffered tissue is recommended for use with colored prints, textiles, and watercolors. Albumen, cyanotype, dry transfer or chromogenic prints also require unbuffered tissue. Very thin (.001) 16 gm2 tissue for maximum translucency. This tissue is an excellent choice for separating prints, drawings, or lithographs.

Item No.	Description	Size	Qty/Pkg	Pkg. Type
741-3041	Tissue	30" x 40"	12 Shts.	Hanging Bag
448-1626	Glassine	16" x 20"	12 Shts.	Hanging Bag

741-1117	Tissue	11" x 17"	100 Shts.	Flat Bag
741-1319	Tissue	13" x 19"	100 Shts.	Flat Bag

Rolls available, call for details.

Buffered Interleaving Tissue

Buffered Interleaving Tissue is recommended for black & white artwork and prints as well as other items that would benefit from acid-neutralizing buffering. The thin (.001) 16 gm2 is desirable for maximum translucency. Buffered with 3% calcium carbonate for use with silver halide films and papers as well as for nitrate based films.

Item No.	Description	Size	Qty/Pkg	Pkg. Type
741-1015BF	Tissue	10" x 15"	100 Shts.	Flat Bag
741-2504BF	Tissue	40" x 250 ft.	1 Roll	Roll

SPECIALTY ARCHIVAL BOXES

Metal edge boxes in unique configurations to protect prints, albums, slides, film, etc.

Available in Black, Tan or Blue/Gray

Protect your valuables the way the museums do: Use acid free tissue to guard against dust and abrasion, layer between art or documents, wrap valuables.

BoxBinder

This economical BoxBinder is manufactured from durable, acid-free board featuring metal edge construction. A 1-1/2" 3-ring mechanism secures most standard pages. A clamshell lid keeps contents protected from dirt, dust and light.

Item No.	Color	Ring Type	Size
733-BB3D	Black	'D'	13.1875" x 11.5" x 2.25"
799-1112	Tan	'O'	12.25" x 11.25" x 2"

Scrapbook or Project Storage Box

Protect and store 12" x 12" page projects or a completed album in this drop front box that is acid-free, lignin-free and has metal edge corners for strength, prevents crushing.

Item No.	Color	Holds	Size
733-2013	Black	12" x 12"	13.75" x 13.75" x 3"

Archival Slide Storage Box

The finest archival quality slide storage box available. A fully telescoping, reinforced metal-edged box. Manufactured of our 40 pt. unbuffered, lignin-free, tan, acid-free board, it provides safe, convenient storage and transportation for your slide collections. Slide storage box with six dividers holds approximately 140 slides. Slide storage master holds six boxes, 840 slides. Fully telescoping lid protects from dust and dirt.

Item No.	Description	Size
Slide Storage Box (holds 140 slides)		
799-2212	Box with 6 dividers	11" x 2.5" x 2.125"
Slide Storage Master

799-5071	Tan	5.5" x 7.75" x 12"

Oversize Photo Storage Box

These sturdy, acid-free storage containers provide a quick, convenient method of assuring photographs are kept in safe condition. Each box has four internal sections and has metal edge reinforced corners. Made of acid-free, lignin-free, 60 pt. board. Available in Black or Burgundy. Designed to hold 1700 photos up to 4" x 6" and their negatives. (Holds Photo File Envelopes 670-4757, not included)

Item No.	Color	Size
613-1512BK	Black	12" x 15" x 5"
613-1512BUR	Burgundy	12" x 15" x 5"

Angle Flap Pockets

Featuring Corrosion Intercept® Technology

One side made of smooth Corrosion Intercept® material and the other side is clear 4.5 mil polyethylene. The flap is scored for easy tucking inside. It can accommodate CDs, DVDs , Zip Discs or booklets up to 5-3/8" x 5". Overall size is 5-1/2" wide x 5-1/4" high. Flap is 1" high. Sold in packages of 10.

Item No. 416-5555

Pockets with Adhesive Backing

Featuring Corrosion Intercept® Technology

This little CD pocket has the advantage of Corrosion Intercept® technology to actively protect the metal layer of your discs from corrosive gasses in the air which can lead to data loss. CDs, DVDs, Computer Software, and Photo Discs will all benefit from the properties of Corrosion Intercept®. A full adhesive backing allows you to conveniently attach the pocket to just about anything, including books, brochures, photo albums, catalogs, etc. Each pocket measures 5-1/2" x 5-1/4", with one side Corrosion Intercept® and the other side made from clear, inert polyethylene for easy identification of contents. Price per package of 10.

Item No. 416-5355

ARCHIVALWARE® MEDIA PROTECTION

Corrosion Intercept® technology increases the lifespan of your discs from 20 to 40+ years. Ozone and reactive oxygen can cause the metal layer of CDs/DVDs to break down and oxidize, making it unreadable. Corrosion Intercept® protects against this failure. The unique design of the CD preservers provide full visibility of the label side of the disc while protecting the data side.

4-CD Pages

Featuring Corrosion Intercept® Technology

These pages will hold 2 CDs in front and 2 in back. The overall size is 5-3/4" wide x 10-1/8" high and will fit in our Perma/Dur® Albums as well as in most standard 3-Ring Albums. Price per package of 5 pages.

Item No. 416-8004

8-CD Pages

Featuring Corrosion Intercept® Technology

These pages offer the ultimate in preserving your CDs/DVDs. Pages are standard 3-Ring punching with overall size of 11 wide x 10-1/4" high. Designed as part of our Archivalware® Storage System, these pages can also be used in Perma/Dur® Albums. Price per package of 5 pages.

Item No. 416-8008

Jewel Case Inserts

Featuring Corrosion Intercept® Technology

The ArchivalWare® insert fits neatly on the bottom section of the jewel case around the hub. The self-adhesive holds it in place to offer protection from air-borne pollutants, mold or mildew. These inserts will remain active for 40+ years. This technology assures your CD/DVD of the maximum protection. Sold in packages of 10 or 100.

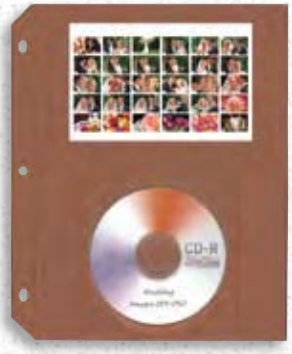

Item No.	Qty/Pkg
416-1959	10
416-1960	100

Photo/DVD Page with Literature Pocket

Featuring Corrosion Intercept® Technology

A 7-1/2" x 5-1/8" upper pocket holds standard DVD literature or Photo CD index print while the 5-1/4" x 5-1/8" houses the corresponding disc. Pages fit in standard 3 Ring Binder. Overall page size is 9-1/4" x 11-3/8". Price per package of 5 pages.

Item No. 416-1458

Perma/Dur® CD/DVD Albums

Available in 2 sizes to accommodate either 4-CD or 8-CD pages, Perma/Dur® Albums are archival and made with sturdy acid-free binder board which is covered with Black F Grade library Buckram bookcloth. 1" slanted D-rings will accommodate 10 pages. Albums will fit our Archivalware® Pages or Standard Binder Pages. The 4-CD album is 11-5/8" high x 7-1/2" wide, 8-CD album measures 11-5/8" high x 13" wide. Price each.

Item No.	Style	Size
463-D4BK	4/Page	12"h x 7.5"w
463-D8BK	8/Page	12"h x 13"w

8-CD Page Storage System

Our Archivalware® Storage System is comprised of a sturdy 3-Ring Album and a matching Slipcase for easy stacking and light/dust protection. Album has 1-1/2" D-Ring system. Maximum capacity is 15 pages (120 CDs) per album. Overall size is 11-1/4" high x 11-7/8" wide.

Item No.	Color	Description
416-8111	Black	Album and Slipcase only

FILM STORAGE SLEEVES

Our sleeves are designed for both labs and professionals, and because our archival sleeve material is made from a specially formulated polypropylene that has a physical density that is less than other sleeving materials, it is more pliable and gentle to your film. These strong and durable sleeves won't become brittle. Sleeves are optically clear, color neutral and have a unique anti-Newton ring surface that reduces distracting Newton rings.

Film Storage Sleeves

Polyguard® (commercial use) and Archivalware® (retail packaging) sleeves are strong and durable, yet pliable and gentle to film and prints. The specially formulated polypropylene is used to make cut sizes for prints and film, slides, and continuous roll film sleeving. Polyguard® print and sheet film sizes and formats are available in sizes 4" x 5" to 20" x 24" (51 x 62cm) in clear, or clear front with frosted back, with an open or sealed flap. Polyguard® frosted sleeving is made of 3 mil archival polypropylene and conforms to ANSI standards. This material provides high diffusion while retaining superior light transmission characteristics.

MOUNTING & MATTING BOARD

Our extensive line of archival quality mat and mounting boards are offered in 2, 4, and 8 ply, in eleven colors, and in full size or cut size sheets. Buffered or unbuffered, 100% cotton fiber or alpha cellulose fiber, the quality of these boards meet the highest standard in the industry.

Kensington™ Buffered 100% Rag, Museum Quality Mounting Board in 2, 4, 6 & 8 Ply

Manufactured from 100% select cotton fibers, this top quality rag board features a 3% calcium carbonate buffer to guard against acid migration. The slightly alkaline pH level of 8.5 enables it to resist fading, discoloration, and embrittlement. It is the standard for museums and galleries. Ideal for both matting and mounting prints, watercolors, etchings, documents and letters. Outstanding surface characteristics and cutting properties. There is no finer board at any price. Sold in full packages only. See shipping information in box at right.

PHOTO MOUNTS & STORAGE

Made from paper, polypropylene, and polyester, Lineco offers a broad selection of mounting corners, tabs, and envelopes for the safe storage of photographs.

Photo Tabs

PAT PASSED ANSI ISO 18916

Photo Tabs provide a simple solution to permanent mounting of photos and documents. The 1/2" square tabs have an acid-free, non-yellowing, pressure sensitive adhesive on both sides. Simply apply to the back of the photo, peel away the easy-lift release liner and press into place.

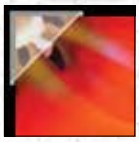

Item No.	Qty/Pkg
533-0030	500

Self-Adhesive Polypropylene Corners

PAT PASSED ANSI ISO 18916

Lineco polypropylene corners provide extra strength and sizes to accommodate larger art pieces. They are safe, and acid-free. The full view variety minimizes the border required to hide the corner under the window mat. Use for light to heavy weight photos and art.

Item No.	Size	Qty/Pkg
L533-0022	0.625"	500
L533-0034	1.25"	250
L533-0035	1.25" Full View	250
L533-0036	3"	100
L533-0037	3" Full View	100

Self-Adhesive Polyester Corners

PAT PASSED ANSI ISO 18916

Lineco polyester corners are very thin, clear and archival quality. They are made of ctystal clear polyester, the museums choice of plastics. Use for light to medium weight photos, and art.

Item No.	Size	Qty/Pkg
L533-0020	0.5"	240
L533-0021	1.375"	240

Photo Postcards

Share your favorite photos with family and friends by turning them into ready-to-mail postcards. Simply apply your photo to the 4" x 6" pressure sensitive backing and you've created a unique mailer everyone will enjoy.

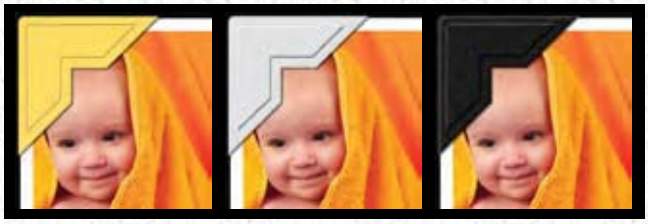

Item No.	Qty/Pkg
377-0005	10

pH Pen

The quick and easy way to determine if paper or paperboard is acidic or safe for treasured collections. Simply draw a line on the material to be tested. A clear or yellow line indicates material which is unsuitable, a purple line reveals the paper is safe for preservation purposes.

Item No. L533-0023

Traditional Paper Corners

Ease of application and traditional appearance of these 1/2" acid-free photo mounting corners make them a popular choice for mounting photos. A neutral pH, water activated adhesive makes them quick and easy to use.

Item No.	Color	Qty/Pkg
533-0028	Gold	240
533-0025	Ivory	240
533-0024	Black	240

Photo Retouching Pens

For Red Eye and White Glow Removal

Remove distracting, red eyes and white glow from your favorite photographs with these specially designed pens. A unique dye transforms the emulsions into a more natural color that won't distract from the beauty of your photos. Not for use on Polaroid prints.

Item No.	Description
533-0015	Red Eye Pen
533-0016	White Glow Pen

Picture View Photo Storage Envelopes NEW!

For Prints and Negatives

Easily identify each set of pictures without opening the envelopes. This picture view system allows you to safely store prints and negatives. Each package contains 3 Resealable Clear Envelopes, 3 Index Cards, and 27 Negative Sleeves. Enough to hold 108 prints and negatives (3 sets of 36 exposure rolls). Designed for both 4" x 6" and/or 5" x 7" prints. Same components as used by professional photographers. Can be stored in Photo File Boxes, 462-5060 Tan, and 462-5061 Black.

Item No. AW14300

For Prints and CDs

Each package contains 3 Resealable Clear Envelopes, 3 Index Cards, and 3 Corrosion Intercept® CD Sleeves for the ultimate in CD protection. Designed for both 4" x 6" and/or 5" x 7" prints. Can be stored in Photo File Boxes, 462-5060 Tan, and 462-5061 Black.

Item No. AW14305

Read about the remarkable benefits of protecting CDs with Corrosion Intercept® on page 15.

Photo Mounting Sleeves

This simple but effective photo mounting technique allows your customers to slide their photos into the appropriate size sleeve, remove the pressure sensitive backing strip and press into place. The mounted photo is protected from dirt and fingerprints by the inert archival polyester sleeve.
