

GOUACHE

PAINTINGS LOOK BETTER
with M. GRAHAM COLOR

NEW 10 Color Deluxe Gouache Set

Superior to brands designed for temporary work, our gouache is crafted with the same high quality, lightfast pigments used in our oil, acrylic, and watercolors. The nature of each pigment creates variations of opacity.

Our gouache is crafted using locally sourced honey, which allows us to load each color with more high-performance lightfast pigments. Each color has been formulated with pure, Northwest honey for layered application without cracking and prevents hardening.
